

FC005

Whole House or Undersink Filter Housing

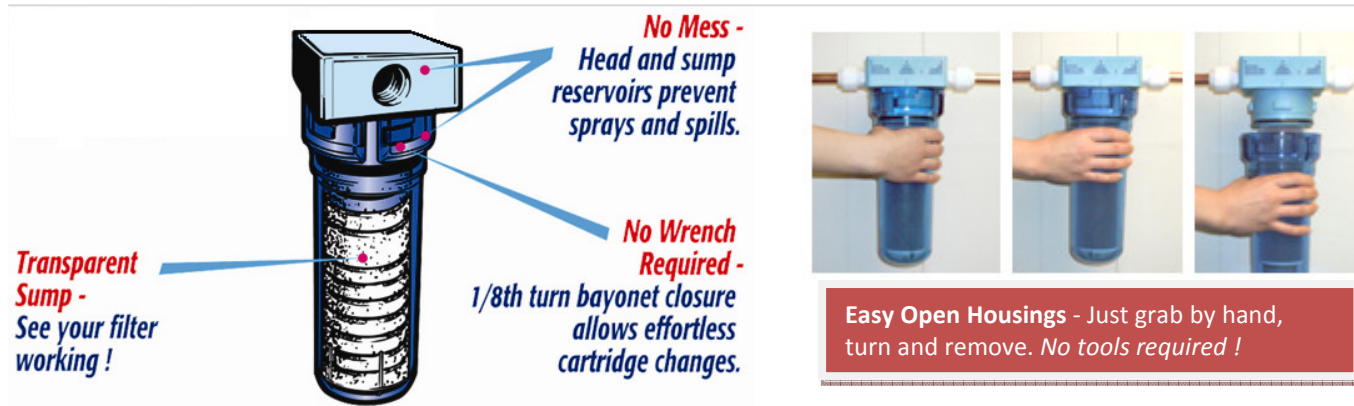

Rainfresh FC005 is a versatile filter housing that can be used as a whole-house sediment filter or an undersink drinking water filter depending on the filter cartridge used.

By installing FC005 on the main water line with a sediment filter cartridge, FC005 can be used as a whole house sediment filter, and by installing it under the kitchen sink using Rainfresh connector kit (CK3) and activated carbon cartridge model CF2 or CA1, FC005 can be used as an undersink filter to reduce chlorine or chloramine, tastes and odours from the cold water line of the kitchen faucet.

Manufactured in Canada using high quality BPA-free materials, Rainfresh FC005 has the following features

Cartridge Options

Whole House

Model HP1 (1 micron), Model CF1 (5 micron), Model CF3 (30 micron)

Undersink

Model CF2 (Chlorine, taste and odour), Model CA1 (Chloramine, chlorine, taste & odour)

Installation Notes:

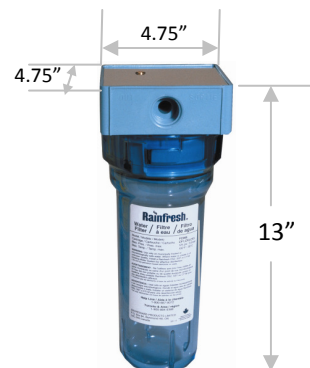

Unit Width (Inch)	Unit Height (Inch)	Unit Depth (Inch)	Connections
4.75"	13"	4.75"	3/4" Female NPT

- Connector kit sold separately

Specifications:

- Water Temperature Range : 4°C to 37°C (39 to 100°F)
- Feed Water Pressure : 10 to 100 psi* (68.9 to 689 KPa; 0.68 – 6.89 bar)
- Rated Flow – Depends on filter cartridge used
- BPA-free materials

* - If water pressure exceeds the rated pressure, a pressure regulator and water hammer arrestor must be installed before the filter housing. It is recommended that the pressure regulator be set at 75 psi or less.

Limited 5 year warranty
