

CF10

Sediment Filter Cartridge

Rainfresh CF10 sediment filter cartridge is specifically designed for general household applications where filtration of medium fine sediment and particulate matter (dirt, rust, algae etc.) is required.

The CF10 filter cartridge is rated at 10 micron nominal and is manufactured using a unique fine bead technology that results in a highly economical filter with excellent flow characteristics. The full 2.65" diameter depth filter delivers better dirt holding characteristics and therefore, longer life of the cartridge.

FEATURES

- Made up of premium grade polystyrene beads with polyethylene gaskets
- Effective in reduction of particles at rated micron size (10 micron nominal).
- Rigid construction - resistant to media migration even under high differential pressure.
- Patented sealing mechanism
- **UNIVERSAL FIT** – Fits Rainfresh and most standard 10" filter housings

BENEFITS

- **Efficient sediment reduction over long life**
- **Economical**
- **Low differential pressure**
- **Excellent filtration characteristics**
- **Universal Fit - Fits most standard 10" filter housings**

SPECIFICATIONS

Model*	Micron Rating	Length (Inch)	O.D (Inch)	I.D (Inch)	Gasket	Operating Temp	Max Flow Rate	Clean pressure Drop @ 60 psi feed @ max flow
CF10	10µ nominal	9.75"	2.65"	1"	Yes	4 - 38°C (39 - 100°F)	8 US GPM	< 5 psi

NOTE – For use with water only.

WARNING: Do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system.

TESTING & CERTIFICATION

Component certified to NSF/ANSI 61 and CSA B483.1 for material requirements only.
